

We know that both men and women sometimes wore jewelry.

### Rings

Men wore a special ring. They used this ring to stamp their mark in soft clay or wax. This was like signing your name. King's marked their laws this way. Merchants sealed their bags this way. Pharoah gave Moses a ring like this.

(Genesis 41:42)

### Staff

Shepherds always carried a staff. Other men also carried a staff. Sometimes this staff was carved or decorated with gold.

### Necklaces, bracelets and anklets

Women sometimes wore necklaces, bracelets and anklets. These were made of gold or bronze or silver or iron. They were sometimes set with precious stones.
