

OLIVE OIL FOR ANOINTING

When olive oil was used for anointing some of the oil was poured out of the horn of oil.

Before a man took an important position he was anointed.

By doing this, people said,

We give this person to God.
From now on this man will serve
God. We believe God will give
him special power for his work.

Samuel came to anoint David as king of Israel long before he was really king. (Read this in I Samuel 16:1) Prophets were anointed. Priests were anointed.

Jesus was anointed by God for His work.
